

# FITRA SCHOOL

## ACADEMIC VISION

### ACADEMIC EXCELLENCE

At Fitra School, we take immense pride in our strong academic Islamic program, designed to foster intellectual growth and a love for learning.

Our dedicated teachers, rigorous curriculum, and diverse extracurricular opportunities empower students to excel academically and develop critical thinking skills in a nurturing environment grounded in Islamic values.

### BLOOM'S TAXONOMY

We are excited to embrace the Bloom's Taxonomy, a framework that categorizes educational goals promoting advanced thinking skills.

This approach helps us prepare students not only to acquire knowledge, but also to

contemplate it meaningfully, apply it practically, and act as responsible stewards of Allah's creation (Khilafah).

### ISLAMIC EDUCATION

We are committed to enhancing the educational experience of our students by embedding excellence in both academic and spiritual growth. Our approach to learning is inspired by the teachings of Islam, encouraging reflection (tafakkur) and seeking knowledge as a form of worship, as the Prophet Muhammad (peace be upon him) said, "Seeking knowledge is an obligation upon every Muslim."

### HIGHER-ORDER THINKING

Bloom's Taxonomy guides us to move beyond basic knowledge acquisition to fostering critical thinking, problem-solving, and creativity. By organizing our curriculum around its levels—Remembering, Understanding, Applying, Analyzing, Evaluating, and Creating—we strive to make learning more impactful linking academic content to their identities as Muslims.

### FUTURE PREPARATION

Our educators incorporate the framework above into lesson designs and evaluation, ensuring that students not only understand key concepts but can also apply their knowledge to real-world contexts. This method fosters independent thinkers who can tackle complex challenges and collaborate effectively, all while grounded in our ethical Islamic values.
